

Eurotips®, Eurobox® and Nanotips®

Application

- Pipette tips in a rack for single- and multi-channel systems

An environmentally compatible system which stands for optimal user convenience and less packaging. The system components – pipette tips in racks and a container – are available separately or as a set (Euroset starter kit) and can be disposed of in an environmentally friendly manner.

Product features of Eurobox®

- Container with non-slip grip and sliding cover
- Can be autoclaved many times (121 °C, 20 min.)
- Refillable with new rack
- Ergonomic angled design
- Ideal for multi-channel systems
- Available separately (with 96 tips*) or as part of Euroset (starter kit consisting of container and several racks for refilling container)

*Exceptions: 2.5 ml: 48 tips; 5 ml: 28 tips.

Product features of Eurotips®

- Pipette tips made of high-quality PP (free of heavy metals)
- Extremely smooth inner surface, requiring only minimum wetting
- Easy attachment due to high wall elasticity of optimized sealing area
- Secure fit without any pressure
- Simple ejection
- Autoclavable (121 °C, 20 min.)
- "Eppendorf" imprint on the rim of the tip stands for Original Eppendorf quality

Product features of Nanotip®

- Tip optimized for the volume range below 2.5 µl for 0.1–2.5 µl Reference and Research pipette models. Although specially developed for this volume range, Nanotips can also be used with the 0.5–10 µl Reference and Research models. In addition, they fit on pipette models in this volume range from other manufacturers. The graduation mark at 2.5 µl enables visual control of pipettings.

Combitips
see page 24.

Standartips and Eurotips

Product features

- 2 racks per box, i.e. double packing density = less packaging
- Tips can also be attached directly out of the packaging (if autoclaving is not required)

- Colorless pipette tips in color-coded racks:
anthracite = 2.5 µl (Nanotip),
gray = 20 µl (cristal Tip),
yellow = 100 µl, yellow = 300 µl,
blue = 1,000 µl, green = 1.25 ml,
red = 2.5 ml, violet = 5 ml*

*Only available in Eurobox, Standartips and not as refill pack

Standartips are attractively priced, high-quality Original Eppendorf pipette tips. They are bulk packed in bags and are available for all tip sizes from 2.5 µl to 5 ml.
